

Become a 'Partner' at the Health Professions Council

The Health Professions Council (HPC) is a regulator of 13 professions and our main aim is to protect the public. To do this, we keep a register of professionals who meet our standards for their training, professional skills, behaviour and health.

We are looking to recruit Hearing Aid Audiologists, who are currently registered with The Hearing Aid Council, for the following partner roles:

1. **Registration Assessors** - who assess international applications onto the HPC Register.
2. **Visitors** - who approve and monitor all of the HPC approved courses.
3. **Panel Members** - who sit on our fitness to practice panels.

For all of the above roles you will need to have sound written and verbal communication skills.

Expenses will be reimbursed, and an allowance is payable for these duties. Training will provided to all appointees.

This appointment will be up until January 2012 and then subject to reappointment.

Please note that the HPC is undertaking this recruitment process in anticipation of becoming the statutory regulator of Hearing Aid Audiologists. However, the relevant legislation has not yet been laid before and approved by Parliament and appointment is subject to that parliamentary approval being given.

The HPC does not accept CVs, so for an application pack and further details about the role, please refer to our website at the following address: <http://www.hpc-uk.org/aboutus/partners/> or email partners@hpc-uk.org
Please contact Marche Wilson, Partner Administrator on 020 7840 9771 for further information about the positions.

The HPC is committed to equality of opportunity and actively guards against unfair discrimination on any grounds (including sexual orientation, religion or beliefs, race, sex, age or disability).

Closing date: 9th January 2009

Interviews for these roles will take place 3rd February 2009 – 13th February 2009
